

Swim Rite Pools

Welcome to Swim Rite Pools, a locally owned and operated family business since 1984. Lanny and Jean Sieving purchased Swim Rite and began running the family business with their children until their retirement. The second generation, Traci, Larry, and Darla, now own and operate Swim Rite Pools. The store has undergone several expansions and renovations over the years. We are always looking for ways to improve our business and find better quality products available to you, our customer.

Swim Rite employees receive special training and are sent to seminars and conventions to keep up with new products and technical information in the pool industry. With the increase of spa ownership, we employ our very own spa tech who works on a variety of makes and models of spas.

We offer many services, including pool construction, opening/closings, liner changes, leak detection, etc. We offer pool maintenance either weekly or a onetime vacation. We also carry a large variety of pool accessories, toys, chemicals, and parts.

With Swim Rite being owned and operated by a family, everything about our store is a family operation – from our employees to our customers. It just makes the whole experience fun, and that is what we are about.
